

The Complete Solution

With our global partnerships, we provide the expertise, knowledge, quality and support in flexible packaging and machinery for coffee roasters.

PRODUCT RANGE

Premium Flexible Packaging

One-Way Degassing Valves

Coffee Pods

World-leading Vertical Form Fill Seal Machinery for Coffee

INDUSTRY EXPERTS

With over 30 years in the industry, we are ready to help you.

PRODUCT KNOWLEDGE

With deep industry expertise we act as advisors for your operations.

GLOBAL PARTNERS

Our strength lies in our network of partners to bring you the perfect solution.

Passion and Experience in Coffee Packaging

Flexible Packaging

Increase the speed and efficiency of your roasting and packing process.

Laminates for a large range of coffee bag styles. With our premium printing quality, your products will always stand out on the shelf and present your brand professionally as well as keeping your ingredients fresh.

- Gravure and UV flexo printing process
- Heat sealable and suitable for vacuum packing
- Full colour for any graphics
- Maximum barrier protection for your beans
- Optimum Shelf life
- Embellishment Capabilities (Embossing, Spot Gloss or Spot Matte)
- Short run capabilities

Bio-Laminates

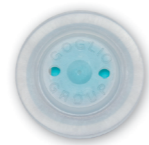

An eco-friendly range of packaging options for coffee roasters that are alu-free to allow compostibility as well as providing an oxygen barrier.

This range includes a metallised cellophane and bio-polymer laminate with a structure designed for high-volume production on certain packing machines.

Degassing Valves

Goglio was the first company to develop the degassing valve in the 1950s. Our Goglio valves are placed in the bag as it's being formed on the machine.

Multiple Valve Options

Inner Valve: The most popular valve that is hidden underneath the laminate surface.

Coffee Pods

Nespresso™ compatible coffee pods: For pod production facilities

Bio-Pods: A range of compostable pods.

Vertical Form Fill Seal (VFFS) Machinery

With our partner Goglio we have packaging machinery options for your bag format and throughput. Customized to your requirements, **local installation and servicing.**

Goglio G21

Because of its compact construction and economical operation, The G21 is ideally suited to the mid volume packer that requires low running costs together with Goglio quality and reliability.

Goglio G18/G18C

For high speed packing and versatility including modified atmosphere packaging, handling volumes from 100g up to 3kg. A continuous option lets you double your output without increasing your footprint.

	G21	G18	G18C
1kg bags per/min	15–16	55	110
Valve Applicator	Yes	Yes	Yes
Gas flushing	Opt	Opt	Opt
Low vacuum	Yes	Yes	Yes
Full vacuum packing			
Soft bag reject		Yes	Yes
Compostable material compatible			Yes
Label applicator	Opt	Opt	Opt
Large bag styles	3	3	3

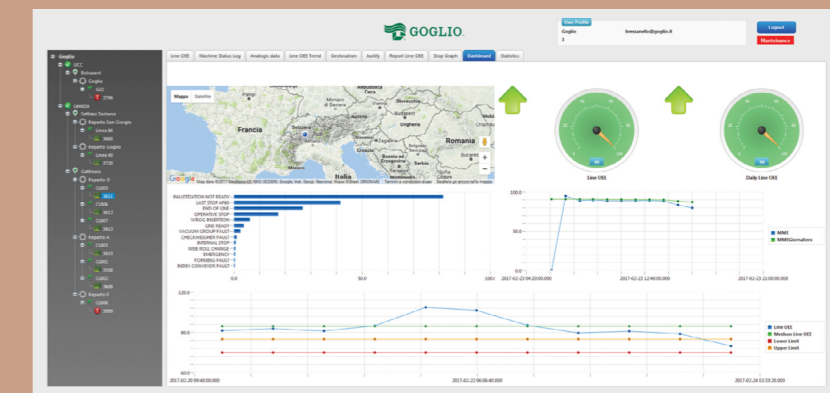

NATIONAL SERVICE CAPABILITIES

- Local Technical Support
- Telephone Support
- Maintenance and Repair
- Installation Support
- Spare Parts

We partner with a network of expert certified electrical and mechanical engineers to ensure the uptime of your Jet Technologies packaging solution.

A COMPLETE CLOUD MAINTENANCE SOLUTION

- Measure and track operational equipment effectiveness
- Full log of all machine activity
- Troubleshoot for continuous improvement
- IoT machinery management to maximise uptime and utilisation across sites

CUSTOMER SUCCESS

“What attracted Dimattina to the G21 were its proven operations in the Australian market, and the ability to purchase the machine, coffee laminates and degassing valves from a single source.”

— Lino Bettiol, Director, Dimattina Coffee
