Painted Aluminium Products

Tin Plate Sheet & Coil

AluZinc Sheet & Coil

Aluminium Sheet & Coil

With access to rolling mills in India, fed by state of the art local smelters, we can source for our customers high quality rolled products from the world's largest manufacturer. Jet also has access to Australian toll painters and can offer a complete solution for many rolled products.

Applications:

- Sheet - Australian Standard Road Sign Material
 - Coil - Transport & Caravans
 - Coil - Architectural Products
 - Coil - Marine
 - Coil - Roofing Products
 - Circles - Ventilators
 - General Engineering & Fabrication
-

Aluminium Foil

Jet Technologies is a supplier of aluminium foil rolls that are suitable for commercial applications and come in a variety of gauges.

Applications:

- Building & Insulation
 - Food Grade Foil
 - Pharma Foil
-

Painted Aluminium Products

Our quality aluminium coil can be locally painted and slit to size to provide a full solution for your painted aluminium products.

Applications:

- Transport and Caravan
- Architectural Products
- Roofing and Panelling
- Insulation Lagging

Tin Plate Sheet & Coil

Jet Technologies distribute quality tinplate sheet and coil for the can-making (food and general line), small drum-making, aerosol and closure industries in the APAC region.

Applications:

- Can Making – Paint Tins & Dangerous Goods
- Small Drums – For Liquid & Food Products
- Closures

AluZinc Sheet & Coil

An outstanding corrosion resistant product for contemporary architecture that requires consistency and quality for the harsh Australian roofing requirements. Supplied in coils for the Australian market.

SERVICE CAPABILITIES

With our own in-house metallurgist expertise in aluminium and aluminium finishing we are able to support the APAC market in the development & improvement of their product and processes.

Jet Technologies' customer service team is based in Sydney to respond to all enquiries and ensure our premium service level.

We supply to some of the largest metal manufacturers, our local aluminium team understands the local environment and requirements and committed to providing service and support throughout the aluminium supply chain.
