Unique Embossing

A selection of solutions to maximise your brand such as stucco/worm embossing, linen embossing, rim-embossing and 3D embossing options for your logo or other prominent elements.

Short Run Lidding

Jet Technologies can enhance your business offering by its ability to supply locally manufactured short run digitally printed lidding.

Create unique promotional codes, graphics, offerings or prototyping multiple designs for A/B testing right there on the supermarket shelf. The lid has the capability to become a marketing tool directly to your customers.

- Small Minimum Order Quantities
- Quick Turnaround
- Variable Data Printing

Cup Fill Seal Machinery

Ilpra FS 2500

The Ilpra FS 2500 is a mechanical rotary filler/sealer machine with 8 stations, suitable to fill denestable plastic cups with liquid and semi-solid products.

Ilpra R12

The Ilpra R12 is the newest rotary fill machinery with the speed of 9000 cups/hour and flexibility to fill your way. This 12 station filler allows you to create your product with a modular design.

	FS 2500	FS 5000	FS 7000	R12/2	R12/3	R12/4
